## **Criminal Justice in Hong Kong**

Containing a wealth of archival material and statistical data on crime and criminal justice, Criminal Justice in Hong Kong presents a detailed evaluation of Hong Kong's criminal justice system, both past and present. Exploring the justice system and the perceptions of popular culture, this book demonstrates how the current criminal justice system has been influenced and shaped over time by Hong Kong's historical position between 'East' and 'West'. Jones and Vagg's examination of the justice system not only takes into account geographical changes, like the erection of the border with communist China in 1950 but also insists that any deep understanding of the current system requires a dialogue with the rich and complex narratives of Hong Kong's history. It explores a range of questions, including: How were Hong Kong's criminal justice institutions and practices formed? What has been its experience of law and order? How has Hong Kong's status as between 'East' and 'West' affected its social, political and legal institutions? Careful and detailed, this analysis of one of the most economically successful, politically stable and safe yet frequently misrepresented cities, is a valuable addition to the bookshelves of all undergraduate and postgraduate students studying Asian law.

## **State of Wisconsin Blue Book**

This book provides readers with a critical analysis of the restorative justice efforts of the Ovaherero and Nama communities in Namibia, who contend that they should receive reparations for what happened to their ancestors during, and after the 1904–1908 German-Ovaherero/Nama war. Arguing that indigenous communities who once lived in a German colony called “German South West Africa” suffered from a genocide that could be compared to the World War II Holocaust Namibian activists sued Germany and German corporations in U.S. federal courts for reparations. The author of this book uses a critical genealogical approach to all of this “lawfare” (the politicizing of the law) in order to illustrate some of the historical origins of this quest for social justice. Portions of the book also explain some of the historical and contemporary realpolitik barriers that stood in the way of Ovaherero and Nama activists who were asking for acknowledgments of the “Namibian genocide,” apologies from German officials, repatriation of human remains from colonial times as well as restitution that might help with land redistribution in today's Namibia. This book shows many of the difficulties that confront those indigenous communities who ask twenty-first century audiences to pay restitution for large-scale colonial massacres or imperial genocides that might have taken place more than a hundred years ago.
